AGRICULTURE
THE UNIVERSITY OF TENNESSEE

2020

SALE

University of Tennessee Bull Development & Evaluation Program

Angus • SimAngus • Hereford • Simmental

January 14, 2021

Noon CST

Middle Tennessee AgResearch & Education Center
1000 Main Entrance Drive, Spring Hill, TN 37174

Announcements from the auction box will take precedence over the information printed in the sale book announcements.

Auctioneer:

Tommy Barnes

Test Director:

Kevin Thompson

Cell: 931-797-6642

Email: kthomp44@utk.edu

Test Manager:

Matt Backus

Cell: 865-363-1576

Email: wbackus1@utk.edu

We would like to express our sincere gratitude to
Lee Maddox, Director of Communications
for *Tennessee Farm Bureau Federation*, for his willingness
to provide video and editing for the sale.

ALL BULLS MUST BE PICKED UP THE DAY OF THE SALE

GENERAL INFORMATION

Purpose

- Provide a standard, impartial post-weaning gain test and development program
- Record performance and phenotypic data that will be useful to the buyer and the consignor for making future breeding decisions
- Provide a source of, and market for, performance tested bulls that meet industry needs
- Serve as an educational tool for bull development as well as beef cattle improvement and promotion

Location

[Middle Tennessee AgResearch & Education Center](#)
[1000 Main Entrance Rd.](#)
[Spring Hill, TN 37174](#)

Centrally located in the state and conveniently accessible from Interstate 65 (via 840 from east or west) approximately 40 miles south of Nashville.

Management, Facilities

- Administration of the program is provided by the University of Tennessee Institute of Agriculture.
- Management of the bulls and data collection is provided by staff at the Middle Tennessee AgResearch & Education Center; coordinated by [Kevin Thompson, Center Director.](#)
- Education programming and bull marketing assistance is provided by the UT Department of Animal Science and coordinated by [Justin Rhinehart, Extension Beef Cattle Specialist.](#)
- The Tennessee Beef Cattle Improvement Association (TBCIA) provides administrative consultation, manages the self-insured program, and administers sale proceeds.

Sale Management

- Public live auction with online simulcast
 - Sale management may choose to offer online pre-bidding if available, but final sale price is determined at live auction
- Eligible bulls will be cataloged and videoed for distribution via hard copy and online media platforms prior to sale
- Consigners may choose not to catalog or offer eligible bulls for sale
 - Consignors must notify the test manager before the off-test weigh date if any bulls are to be retained for home use and not sold
- Consigners may retain a semen interest in any bull, but full possession must be sold (i.e., fractional possession offerings will not be available)
- Proceeds from the sale of each bull will be collected by sale management and the balance after final settlement (see below) returned to the consigner
- Terms and conditions of the sale will be printed in the catalog
- Transfer of registration, and associated cost, is the consigner's responsibility

Health Status

All bulls that have been entered into the UT bull evaluation have been vaccinated and received booster vaccination with Express FP5 VL5 - MLV - IBR, BVDV 1&2, PI3, BRSV, Killed - *C. fetus*, 5 way leptospirosis, Prespense HM - *M. haemolytica*, *P. multocida*, Caliber 7 - 7 way clostridium and dewormed with pour on Eprinex. These bulls received a negative test status for anaplasmosis and persistently infected Bovine viral diarrhea virus prior to entering the program.

TERMS AND CONDITIONS OF SALE:

1. Each animal will be sold to the highest bidder without reserve. However, a consignor may retain up to a one-half revenue sharing interest of semen sales. Such bulls will either be denoted in catalog or announced from the auction box on sale day.
2. The auctioneer will settle any dispute as to bids and his decisions on such matters shall be final. Cattle will remain property of consignor until sold.
3. Each animal will become purchaser's risk as soon as sold, although every precaution will be taken to ensure their safety.
4. A certificate of registry and transfer will be furnished for each animal sold. Transfer to be made by consignor.
5. Breeding guarantee - all animals sold are guaranteed to be breeders. Bulls are guaranteed breeders if properly cared for and not allowed to run with herd under 18 months of age. Any bull that settles at least one-third of the healthy cows he breeds will be considered a breeder. Any animal not complying with any of these breeding guarantees may be returned to the farm of the seller at the buyer's expense, and if in good condition and complying with the health requirements of the seller's state, shall entitle the buyer to a satisfactory adjustment. In the case of an animal claimed to be a non-breeder, the seller shall be entitled to six months following the return of the animal in which to demonstrate that the animal is a breeder. The University of Tennessee does not assume any liability for breeding guarantee.
6. Claims for refund or other adjustment. All claims for adjustment of refund for any reason must be in writing within six months of the sale or three months after the animal sold reaches the age of 18 months, whichever occurs later. The return of the full purchase price or selection of another bull will in any case be deemed full satisfaction and settlement.
7. Everything possible will be done to prevent accidents. However, if any should occur, neither the owners, sales management, or other persons connected with management of the sale, assume any liability, legal or otherwise, to persons or property. The University of Tennessee does not assume any liability for injury to the animals.
8. The terms are cash or check.
9. The above guarantees and terms of sale shall constitute a contract between the buyer and seller of each lot and shall be equally binding upon both. Neither the sale manager nor any other person connected with the management of the sale assumes any liability, legal or otherwise. The University of Tennessee does not assume any liability for any other guarantee or condition of sale.
10. All persons attending sales do so at their own risk. Neither the sale manager, nor any other person connected with the management of the sale, assumes any liability for the safety of the building or premises or for the behavior of the animals.

TAEP Beef Genetics Cost Share

Quick-Reference

*This quick-reference guide indicates potential cost share through the TAEP program, assuming both the buyer and bull meet requirements for maximum cost share level.

Additional levels of cost share are available for buyers and bulls meeting different requirements. Please visit the following webpage for more details and examples:

<https://animalscience.tennessee.edu/bull-calculator-examples/>

Purchase Price	Amount Paid on Sale Day	*Max TAEP Cost Share Amount	Net Cost After Cost Share

EPD											
Acc											

Lot – Number on the bull’s visual identification ear tag.

Also serves as the sale lot number.

Name - Full name as found on the bull's official pedigree as issued by the breed association.

EID - Number on the bull's electronic id tag.

Reg# - Registration number found on the bull’s official pedigree as issued by the breed association.

Pen – Pen number where the bull can be viewed at the development facility.

DOB – Date of birth.

Tattoo – Number tattooed on the inside of the bull’s ear(s).

EPD – Expected Progeny Difference; used to compare the expected average offspring performance for bulls of the same breed.

Acc. – Accuracy of individual EPD; indicates the variation you can expect around the expected difference.

CUS - Carcass ultrasound measurements; adjusted by the bull's breed association.

Ratio - Performance of an individual bull relative to the average performance of his contemporaries.

CG# - Contemporary Group, Number of bulls that finished the test, within breed.

Adj WW - Adjusted 205-day weight using BIF Formula.

ADJ YW - Adjusted yearling weight using BIF Formula.

ADG - Average daily gain of bull during the 84-day performance test.

WDA - Weight per day of Age.

Frame Score - Calculated using BIF Formula.

Scrotal Circ - Off test scrotal circumference.

Claw Set – Straightness, symmetry, and gap between claws scored from 1-9 (5 is ideal; higher or lower numbers indicate less ideal hoof structure the further they range from 5).

Foot Angle - Angle at the pastern joint, length and heel depth scored from 1-5 (5 is ideal indicating a 45-degree angle).

CED - Calving Ease Direct - Predicts the average difference in ease with which a sire's calves will be born when he is bred to 1st calf heifers

BW - Birth Weight, expressed in pounds. A predictor of a sire's ability to transmit birth weight to his progeny compared to other sires

WW - Weaning Weight, expressed in pounds. A predictor

of a sire's ability to transmit weaning growth to his progeny compared to other sires.

YW - Yearling Weight, expressed in pounds. A predictor of a sire's ability to transmit yearling growth to his progeny compared to other sires.

MILK - Maternal Milk. A predictor of a sire's genetic merit for milk and mothering ability as expressed in his daughters compared to daughters of other sires.

CEM - Calving Ease Maternal. Predicts the average ease with which a sire's daughters will calve as first calf heifers when compared to daughters of other sires.

DOC - Docility. Expressed as yearling cattle temperament.

SC - Scrotal Circumference. Expressed in centimeters. A predictor of the difference in transmitting ability for scrotal size compared to that of other sires.

\$W - Weaned Calf Value. Expressed in Dollars/head. Predicts profitability differences in progeny due to genetics from birth to weaning.

API - All Purpose Index. Evaluates sires for use on the entire cow herd. With the portion of their daughters retained and other heifers and steers fed out and sold.

STAY - Stayability. Percent of Daughters remaining in the cowherd at 6 years of age.

SCF - Sustained Cow Fertility. Prediction of a cow's ability to continue to calve from 3 years of age through 12 years of age given she calved as a 2-year-old.

BMI - Baldy Maternal Index. Maternally focused index based on production system that uses Hereford x Angus cross cows.

MARB - Expressed as a fraction of the difference in USDA marbling score of a sire's progeny compared to progeny of other sires.

REA - Ribeye Area. Expressed in square inches. A predictor of the difference in ribeye area of a sire's progeny compared to progeny of other sires.

FAT - Fat Thickness. Expressed in inches. A predictor of the difference in external fat thickness at the 12th rib of a sire's progeny compared to progeny of other sires.

CW - Carcass Weight. Expressed in pounds. A predictor of the differences in hot carcass weight of a sire's progeny compared to progeny of other sires.

HPS - Horned, Polled, Scurs

Color - Genetic Color

Breed % - Breed composition of SimAngus bulls
